Data collection, cleaning, and pivot tables

Python (Pandas)

Data validation and deeper cleaning

Power BI

Dashboard and visualizations

DATA COLLECTION AND CLEANING

➤ **Data Collection**

Data collected manually from the official Netflix viewership chart (netflix.com/tudum/top10) covering 19 weeks from January to May 2026.

➤ **Data Cleaning**

- Movies Sheet - 6 issues found and fixed
- Shows sheet - 4 issues found and fixed

Issues fixed included :-

- Wrong number formats (1,72,00,000\t → 17200000)
- Runtime format converted (HH:MM:SS → decimal hours)
- Column name typos (Ttitle → Title)
- Genre spelling mistakes (Documentry → Documentary)
- Title whitespace (' KPop Demon Hunters' → 'KPop Demon Hunters')
